

Go to www.irecord.org.uk You will need to 'register' if you haven't already done so. This allows notification emails when your records are checked and allows verifiers to contact you if they have a query. Once registered and logged in, click on 'All records' from the drop-down list in 'Explore'.

The screenshot shows the iRecord website interface. At the top left is the iRecord logo. A navigation bar contains links for Home, Record, Explore, Summarise, Activities, Verify, Forum, and Help. On the right of the navigation bar are links for My account and Log out. Below the navigation bar, the 'Explore' menu is open, showing options: My records, All records, My sites, My photo gallery, Species maps, Recorder league, My notifications, and Download records. A welcome message reads 'Welcome back Pam Taylor'. A statistics section displays: 17,779,334 records, 28,988 species, 3,737,275 photos, and 196,288 recorders. A map of the UK shows several blue location pins in the southeast. A 'Recent sightings' section lists 'Common Darter (Svmpetrum striolatum)' with a date range of 01/09/2021 to 30/09/2021 by N. Odin.

Explore all records

This is an updated Explore page, made available in November 2020. It should load up much more quickly than our previous Explore page. There are some differences from the previous version - for full details of how you can use it to view records for particular species or areas see [using the new Explore pages](#).

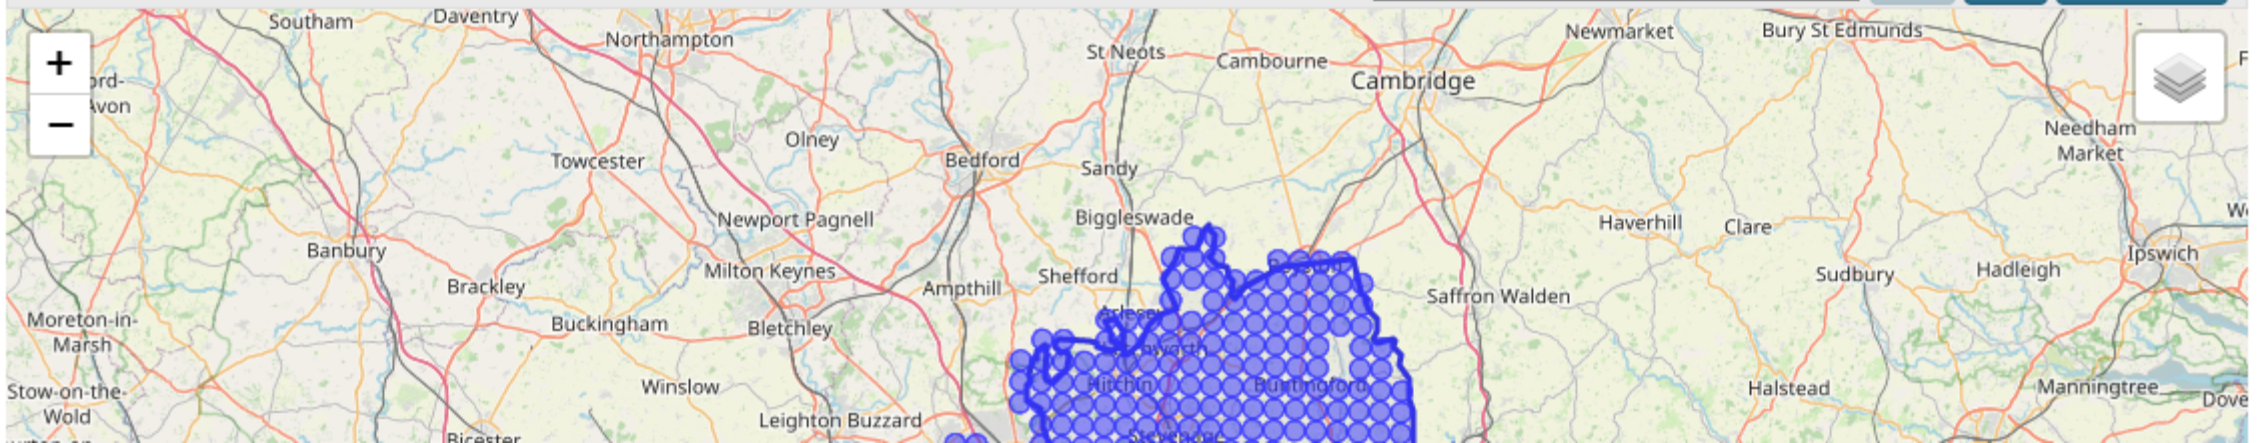

(The previous Explore all records page can be [found here](#).)

Search:

Records to include:

Vice County:

Filter:

Explore all records

Click the 'What' box, then inside, on the 'Species groups' tab, select or add 'insect – dragonfly', then click 'Apply'

You can choose the type of records to explore here or here

This is an updated Explore page, made available in November 2020. It should load up much more quickly than our previous Explore page. Search: Records to include: Vice County:

Filter:

What Select a list of species or species groups to include	Where Define the geographic area, site or map reference to include	When Define a date range for records to include	
Who Define whose records to include	Record ID Select records by record ID	Quality Exclude queried or not accepted records	Source Select records based on source website, survey or input form

Save filter as:

Below the map of your chosen area, you will now see a list of records.
 You can save this filter for future use, or 'Reset' to look at another area or species group etc.
 Use the up/down arrows next to the 'Date' column header to sort the list into date order.
