Total species in category:							1	0	13	7	5	15

Bold underlined = nationally important species **Bold black = important species**

Succ = Successful breeding (exuvia(e) and/or larva(e) and/or pre-flight emergent and/or oviposition);
Poss = Possible breeding (copulating pair); Other = Adult(s) or unspecified.

Abundance codes: A=1; B=2-5; C=6-20; D=21-100; E=101-500; F=>500; + = no count.

Priority Species History

Small Red Damselfly – 1 male in 2022 and B adults (2-5) in 2024.

Habitat

In-bye meadows, willow scrub, ponds and mire. The pond with the most dragonfly interest is in a small field at the north of the site (SX7442177184)

Status

Devon Wildlife Trust Reserve

Area

c1 ha (wetland)

Local Authority: Dartmoor National Park

Owner/tenant

Devon Wildlife Trust
